

I signed up for "Do Not Call" because the calls were interfering with our family time together. Today, families are very active in their church, school and community. When we are able to get together at home, the last thing needed is the phone to ring! I've always been very polite with the telemarketers knowing that this was their job/career, but the truth of the matter is, their call has never "persuaded" me to purchase anything. Most of my purchases are done on the internet, from TV ads or just plain going shopping after viewing the circulars that come to your house through the mail or newspapers. I support New Jersey and their assistance to our families in implementing the Do Not Call program. Thank you Governor Codey for your support!
